WiBand Communications Corp.  
4-2130 Notre Dame Avenue  
Winnipeg, Mb  
R3B 0K1

To Whom It May Concern:

**RE: Company Reference Letter – Cinch Networks Inc.**

WiBand Communications have been using the services of Cinch Networks for several months. Accordingly, I have no hesitation in recommending them as a company with which to do business.

In addition to doing business with his company for several months, I have known Mr. Ryan McGillivray for over 5 years. We were formerly colleagues at WiBand Communications Corp. for many years, and worked very closely together on several major projects. Knowing him for so long I am quite comfortable in vouching for him as a great individual as well as a tremendously skilled network engineer.

As far as a company to do business with, Cinch Networks Inc. has been a pleasure to deal with and we will continue to utilize their services. On several occasions, we have requested emergency service and they have always been very quick to respond to our request and of course have provided quality work.

WiBand has used the services of Cinch Networks for a wide array of IT consulting and project management including high-end routing and switching projects, high level customer support, and emergency network troubleshooting and service work. Based on our experience, any company requiring professional IT or network consulting should not hesitate to select Cinch Networks as a company to do business with.

Sincerely,

Mike Bayes  
Manager of Network Operations
